

SUMMARY OF GRANTS

Flint Rising through Tides Foundation as intermediary

\$250,000

June 2016 to May 2018

Purpose: Increase leadership training and development opportunities for residents by building an organizing infrastructure to engage and empower residents in identifying strategies, actions and solutions around the water and lead crisis in Flint.

Genesee County Community Action Resource Department

\$500,000

June 2016 to May 2018

Purpose: increase access to healthy food, nutrition and enrichment activities for children ages 0-8 residing in neighborhoods with elevated lead levels by expanding a summer meals and academic year program to help mitigate potential health issues related to the water and lead crisis in Flint.

Genesee County Health Department

\$800,000

June 2016 to August 2018

Purpose: ensure that children and families impacted by the water and lead crisis in Flint can access health care services, treatments and other supports by identifying service gaps and needs via a targeted community-based outreach, enrollment and referral process for the new Medicaid waiver expansion ruling.

Genesee County Hispanic Latino Collaborative

\$110,000

June 2016 to May 2018

Purpose: increase leadership training and development opportunities for the Hispanic/Latino community by launching a community organizing and canvassing effort to empower and engage immigrant residents in identifying strategies, actions and solutions around the water and lead crisis in Flint.

Michigan Faith in Action

\$250,000

June 2016 to June 2018

Purpose: increase leadership training and development opportunities for Flint residents by building an organizing infrastructure to engage and empower residents in identifying short-, mid- and long-term strategies and actions in addressing the water and lead crisis.

Mott Community College

\$499,960

June 2016 to May 2018

Purpose: expand training and education opportunities to Flint residents by creating work and career pathways to ensure that residents can access immediate and long-term employment opportunities in both relief and rebuilding efforts around the water and lead crisis.

St. John Hospital and Medical Center

\$112,000

April 1, 2014 to July 31, 2017

Purpose: reduce the gap in culturally sensitive breastfeeding support by strengthening an education and career pathway, which enables minority women in the Detroit metropolitan area to be trained as lactation consultants.

Regents of the University of California – Agriculture and Natural Resources

\$960,000

February 2016 to December 2018

Purpose: improve kids' access to and consumption of safe drinking water in schools, early childcare and education settings and at kid-frequented public sites (e.g., libraries, parks) by supporting the National Drinking Water Alliance to build capacity and advance policy priorities and strategic activities.

Regents of the University of Michigan-Flint

\$600,000

May 2016 to April 2018

Purpose: increase access to high-quality early learning opportunities to children 0-5 in Flint by expanding services and improving outreach and training to early childhood providers in identifying and addressing education, behavioral and health needs of children most affected by the water and lead crisis.

Community Foundation of Greater Flint

\$500,000

July 2016 to August 2017

Purpose: increase community engagement opportunities for residents and ensure children, ages 0-8, can access key education and health interventions by supporting a

neighborhood small grants initiative and a fund dedicated to helping human service organizations respond to the water and lead crisis in Flint.

Environmental Defense Fund, Inc.

\$1,800,000

June 2016 to May 2018

Purpose: this project will result in four important outcomes: make full lead service line replacement a priority for utilities and communities by securing voluntary replacement commitments from communities across the country; democratize drinking water testing for concerned families by making testing equipment accessible and data publicly available; improve communications about risks posed by lead paint and pipes; and support and secure policies that improve lead management and prevention outcomes.

Fair Food Network

\$190,000

July 2016 – March 2017

Purpose: support the health of vulnerable families and increase the economic well-being of Michigan’s communities by improving and scaling up the Double Up Food Bucks project. They will work with the Flint Farmer’s Market and two Landmark Food Center grocery stores, as well as recruit additional retailers.

American Public Health Association

\$400,000

June 2016 to May 2018

Purpose: improve healthy living opportunities for vulnerable kids by identifying and recommending strategies that advance best practices in environmental public health systems to address gaps in existing policies and services related to unique environmental health issues facing vulnerable kids.

University of California, San Francisco, School of Medicine

\$96,000

2015 – 2018

Purpose: Improve children’s access to and consumption of drinking water in school and other education settings.

Horsley Witten Group, Inc.

\$36,800

April 2015 to August 2016

Purpose: Provide education and outreach materials to homeowners and tenants concerned about lead in water.

###

About the W.K. Kellogg Foundation

The W.K. Kellogg Foundation (WKKF), founded in 1930 as an independent, private foundation by breakfast cereal pioneer, Will Keith Kellogg, is among the largest philanthropic foundations in the United States. Guided by the belief that all children should have an equal opportunity to thrive, WKKF works with communities to help break the cycle of poverty by removing barriers based on race or income that hold back children, so they can realize their full potential in school, work and life.

The Kellogg Foundation is based in Battle Creek, Michigan, and works throughout the United States and internationally, as well as with sovereign tribes. Special emphasis is paid to priority places where there are high concentrations of poverty and where children face significant barriers to success. WKKF priority places in the U.S. are in Michigan, Mississippi, New Mexico and New Orleans; and internationally, are in Mexico and Haiti.
